### Supplies needed:

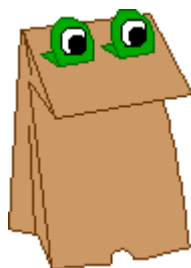

- Paper bags
- Scraps of construction paper
- Glue
- Scissors
- Markers or crayons
- Optional - googly eyes, pipe cleaners for whiskers

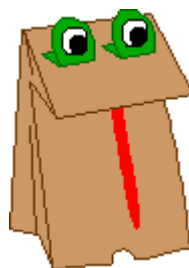

### Frog:

Make bulging frog eyes by cutting two strips of green paper that are rounded on one end. Fold the straight end under (at the dotted line), and glue on an eye (made of paper or a googly eye).

Glue or tape the folded base of the eyes onto the paper bag.

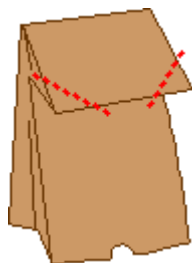

Cut a long tongue out of paper. Glue in the frog's mouth.

**Frog**  
Glue on two short arms and two long legs, and decorate the frog with green paper patches.

### Raccoon, Dog or Bear:

Fold the two square edges of a paper bag under (at the dotted lines), to form the animal's head.

You now have the shape of the animal's head.

**Raccoon**  
Cut out ears, eyes, and a nose. Glue them to the raccoon's face.

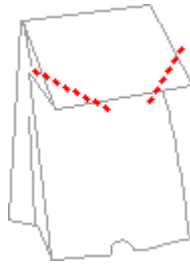

**Dog**  
Cut out ears, eyes, a nose, and a tongue. Glue the tongue inside the mouth. Glue the eyes, nose, and ears to the dog's face.

Fold the two square edges of a paper bag under (at the dotted lines), to form the animal's head.

You now have the shape of the animal's head.

## Paper Bag Reindeer Puppet

### Supplies needed:

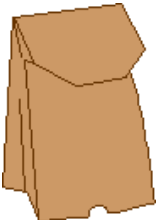

- Paper bags
- Deep red (or another color) construction paper
- Glue
- Scissors
- Markers or crayons
- Optional - googly eyes

1. Trace two hands on construction paper. Cut them out. These will be the reindeer's antlers.

2. Fold the two square edges of a paper bag under (at the dotted lines), to form the reindeer's head.

3. You now have the shape of the reindeer's head for the puppet.

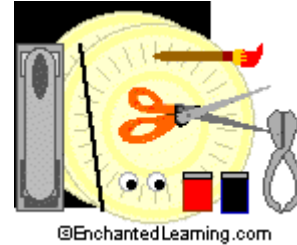

4. Glue, tape, or staple the handprints behind the reindeer's head.
5. Cut out eyes from construction paper (or glue on googly eyes). Using red paper, cut out and glue on a large red nose. Glue them to the reindeer's face. Draw a mouth with a marker or crayons.

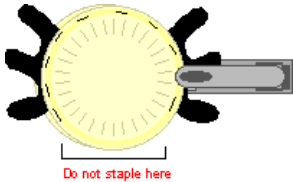

# Paper Plate Ladybug Puppet

## Supplies needed:

- Two paper plates for each ladybug
- Scissors
- Stapler or tape
- Red and black paint, markers or crayons
- Glue
- Black construction paper
- Pipe cleaner
- Hole punch
- Optional - googly eyes

1. Using black construction paper, cut out the ladybug's legs (cut two sets of three legs).

2. Staple (or tape) two paper plates together (put the eating surfaces of the plates on the inside) - make sure to staple the legs between the plates. Don't staple the plates all the way round - leave one end of the ladybug unstapled.

3. Cut off the rim of the plates where they were not stapled (or taped) - this is where you will put your hand to move the ladybug.

4. Paint the top of the ladybug red (except the head, which is black). Paint the bottom of the ladybug black. Either paint some black dots on the ladybug or glue some black circles on its back.
5. Either paint eyes or glue on googly eyes.

6. Punch two holes at the top for the antennae. Thread a pipe cleaner through the holes.
